

CLIENT CASE STUDY

K-Way Express, Inc.

Who is K-Way Express, Inc.?

K-Way Express, Inc. is the most trusted trucking company in Minnesota. A second-generation family-owned business that has operated for 60-years.

Providing exceptional service, competitive pricing, a diverse driving force, while offering 48-state pickup and delivery with a proven, successful formula.

Addressing the Issues

Dock & Door Tec was contacted to improve the loading dock area in K-Way Express, Inc.'s 1980s built-building.

ISSUES:

1. Outdated facility
2. Small dock spaces don't accommodate today's larger truck needs of 9' to 10' openings
3. Changing dock sizes required customization of facility

D&DT Solutions

Consistent and accurate communication between Dock & Door Tec project management and contractors minimized scheduling obstacles and enhanced these solutions.

SOLUTIONS:

1. Remodel 5 loading docks and doors into 4 larger loading docks and doors
2. Increase dock size to accommodate today's modern truck which included: removal of entire wall, shoring of ceiling, and cutting of walls to fit new larger openings
3. Installed complex dock enclosure to accommodate a large variety of truck types

Dock & Door Tec provided a system that not only looks good but works well. Our relationship is strong after many years of service. We trust Dock & Door Tec."
